ONKYO

THE HEARTBEAT OF ENTERTAINMENT

THE JAPANESE SPECIALIST IN AUDIO SOLUTIONS SINCE 1946

For 80 years, Onkyo has been a pioneer in high-performance audio and home entertainment. Founded in Japan by Takeshi Godai, the brand was built on a passion for sound purity, engineering precision, and continuous innovation. The name “Onkyo,” meaning sound harmony, reflects a philosophy that continues to guide every product design today.

Today, Onkyo is a global leader in AV receivers and premium audio solutions, integrating cutting-edge technologies like THX® certification, Dirac Live, and wireless connectivity. Committed to delivering exceptional clarity, power, and emotion, Onkyo continues to redefine immersive sound experiences for music lovers, movie enthusiasts, and gamers worldwide.

Onkyo reinforces its position with a clear and structured portfolio built around three complementary pillars: premium Home Cinema, modern Hi-Fi & network amplification and lifestyle speakers. With this bold evolution, Onkyo stays true to its heritage while embracing the future of sound.

ONKYO

THE SOUND SIGNATURE

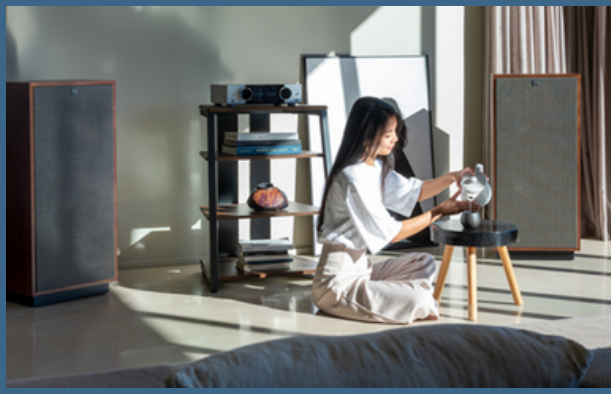

EMOTIONAL CONNECTION

The Onkyo sound signature is designed to faithfully reproduce the artist's intentions.
With a **natural tonal balance**, **precise detai**l, and **expressive dynamics,** every note is delivered with clarity and emotion: made possible through **advanced acoustic technology**.

IMMERSIVE

Onkyo's **sound tuning** creates a truly immersive listening experience. A wide **soundstage, natural expansion of sound, and a rich sense of atmosphere** allow you to feel fully surrounded by the music.

ONKYO

AV RECEIVERS

The RZ Series represents the best of Onkyo's current audio-video receivers (AVRs) on the market. With the flagship TX-RZ70 and TX-RZ50 models launched in 2023 — both including a free DIRAC LIVE room correction license — Onkyo has clearly set a new benchmark for sound and visual performance.

Designed for home entertainment enthusiasts, particularly gamers and home-cinema fans with multi-speaker setups, the RZ range delivers some of the most advanced circuit designs and audio-video processing available today.

The TX-RZ50 received the EISA Award for Best Buy AV Receiver 2023–2024.

TX-RZ50

TX-RZ70

PREMIUM AV RECEIVERS

RZ SERIES

TX-RZ70

11.2-CHANNEL AV RECEIVER

The TX-RZ70 delivers remarkably pure sound, stellar visuals and the latest technologies to power the heart of the home entertainment system. With uncompromising high resolution audio/video reproduction, end-users will enjoy movies, music and games exactly as the creators intended.

250 W/CHANNEL

It is our most powerful AVR yet, giving the power to design the ultimate entertainment space with discrete zones, multiple subwoofers, and high-performance components that won't overheat or lag.

STUDIO GRADE PROCESSING

Utilizing the very latest audio technology including ESS Sabre DACs, THX® Certification, and eARC functionality, it over delivers on premium home theater performance.

TX-RZ50

9.2-CHANNEL THX CERTIFIED AV RECEIVER

The TX-RZ50 delivers enormous power on-demand to highlight every nuance of the music, movies, and games. Thanks to an extensive feature set, including full-bandwidth Dirac Live for in-depth calibration, Onkyo's TX-RZ50 receiver offers impressive value for money.

9.2-CHANNEL PROCESSING

The TX-RZ50 features up to 9.2 channel processing and pre-outs for 5.2.4 system layouts, making it an ideal choice for a premium home theater setup and a great cinema experience.

TX-RZ30

9.2-CHANNEL AV RECEIVER

For 80 years, Onkyo has been providing audiophiles with sounds that no other company can match. Thanks to unique analogue circuitry and high-end amplifier technology, the 9.2-channel Onkyo TX-RZ30 delivers your favorite content with out-of-this-world sound – with soaring highs and extended deep bass up to 5 Hz. Fan favorite features like Dirac Live, optional Dirac Live bass control for two independent subwoofer outputs, Dolby Atmos, Works with Sonos, and IMAX Enhanced come standard with the Onkyo RZ Series AVRs to make it the heartbeat of your entertainment system.

KEY FEATURES

RZ SERIES

HDMI 2.1 WITH 8K

HDMI® 2.1 supports eARC, higher video resolutions and refresh rates including 8K/60Hz and 4K/120Hz, as well as Dynamic HDR formats. With four times the pixels of 4K, 8K delivers exceptional clarity and detail. Combined with high refresh rates, it allows the user to enjoy ultra-smooth, razor-sharp visuals — even during fast-paced action scenes and next-generation gaming.

HDMI
HIGH-DEFINITION MULTIMEDIA INTERFACE

IMAX ENHANCED

IMAX ENHANCED MODE

IMAX Enhanced brings the cinematic experience into the user's home. The TX-RZ50 and TX-RZ70 meet IMAX's strict performance standards to deliver brighter images, improved contrast, reduced noise, and immersive sound. IMAX Enhanced Mode also provides up to 26% more picture, placing the user closer to the director's original vision.

THX CERTIFIED

In 1993, Onkyo became the first consumer home theater brand to earn THX certification. After extensive testing, THX ensures that sound is reproduced exactly as intended — with nothing added and nothing taken away. The TX-RZ50 and TX-RZ70 offer four dedicated THX listening modes: cinema, gaming, music, and surround EX, allowing the user to optimize performance for every type of content.

THX CERTIFIED

Dolby Atmos

DOLBY ATMOS

Dolby Atmos places sound precisely around and above the user, creating a true three-dimensional audio environment. Onkyo's integrated Dolby Atmos processing enables the user to experience every detail with remarkable accuracy. Whether watching a film, gaming, or streaming music, the user is fully immersed in a powerful, room-filling soundstage.

AURO 3D

AURO-3D® enhances immersion by adding a natural vertical dimension to sound. Audio flows around and above the user, creating a lifelike 3D experience. It elevates movies, music, and live sports, placing the user at the center of the action.

AURO 3D AUDIO

ONKYO

KEY FEATURES

BUILT-IN STREAMING SERVICES

Spotify®, TIDAL, and Qobuz are built directly into the system. The user can access favorite streaming services through dedicated apps or via the free Onkyo Controller app (iOS and Android), ensuring simple and intuitive control.

WORKS WITH SONOS CERTIFIED

This Onkyo receiver integrates seamlessly into an existing Sonos system when paired with a Sonos Port*. It can automatically power on, switch inputs, and adjust volume directly from the Sonos app using Volume-Pass Through. The TX-RZ50 and TX-RZ70 support up to three Sonos Ports — enabling independent playback in multiple zones throughout the user's home.

WIRELESS AUDIO AND VIDEO STREAMING TECHNOLOGY

AirPlay 2 allows the user to stream audio and video wirelessly from Apple devices directly to the Onkyo receiver. The user benefits from seamless multi-room playback and high-resolution streaming throughout the home, with support for up to 8K/60 video pass-through.

KLIPSCH OPTIMIZED MODE

Klipsch Optimized Mode allows the user to easily integrate Klipsch Reference and Reference Premiere speakers with an Onkyo AV receiver. Once the speaker model is selected, the appropriate crossover settings are automatically applied, ensuring optimal performance and effortless setup.

INCLUDED FOR FREE IN THE RZ SERIES

DIRAC LIVE

RZ SERIES

WHAT'S DIRAC LIVE?

- Dirac Live is a complete audio processing solution solving all the possible performance issues inherent to an audio setup: acoustic and electronic devices' potential imperfections, but also room effects playing a predominant role on the final sound quality.
- Dirac Live uses patented, purpose-built technology to correct not only the frequency response - which is where many other room correction technologies stop – but is also acting in the time domain, meaning each soundwave hits the ears precisely when the artist intended.
- Only Dirac Live delivers phase alignment, speaker driver alignment, room resonance reduction, and early reflection reduction.

CONSUMER'S BENEFITS

- No need to master any complex acoustical knowhow. The calibration is done thanks to a simple smartphone or through the dedicated PC / MAC OS software.
- The final stage of the calibration allows manual decisions or adjustments on top of the automatic correction suggested if the user wants his own settings.
- Listeners get a more accurate measurement and improvement of their sound system. The result after correction is a more precise and balanced equilibrium, cleaner kicks, improved intelligibility, sharper details, faster transients, deeper extension. Whatever the setup: from a simple high-end stereo system to a highly complex multichannel home-theater solution, Dirac Live Room correction suddenly unlocks the loudspeakers' full potential, improving audio performance across the full frequency bandwidth without any additional hardware upgrade.

ONKYO

MID-RANGE AV RECEIVERS

NR SERIES

TX-NR7100

9.2-CHANNEL THX CERTIFIED AV RECEIVER

With 9 channels and built-in, ready-to-use Dirac Live® Room Correction, the Onkyo TX-NR7100 9.2 Channel THX® Certified AV Receiver brings new meaning to the phrase, “home movie night”.

TX-NR6100

7.2-CHANNEL THX CERTIFIED AV RECEIVER

This smart Onkyo TX-NR6100 AV Receiver delivers an unparalleled movie, music, and gaming experience. It emphasizes precision sound and images, enhancing especially the gaming experience with HDMI 2.1 enhancements for gamers.

TX-NR5100

7.2-CHANNEL 8K AV RECEIVER

The Onkyo TX-NR5100 is an affordable and versatile home theater centerpiece tailored to deliver a best-in-class entertainment experience for your movies, music, and next-gen gaming systems.

ONKYO

STEREO RECEIVERS

Onkyo Stereo Receivers combine precision engineering with timeless audio performance. Designed for music lovers who value pure, high-fidelity sound, these receivers deliver powerful amplification, versatile connectivity, and refined craftsmanship.
Whether streaming modern digital sources or enjoying classic analog formats, Onkyo stereo receivers provide the clarity, depth, and reliability needed to bring every listening experience to life.

TX-8470

ONKYO

STEREO RECEIVERS

TX-8470

NETWORK STEREO RECEIVER

Designed for audiophiles, the TX-8470 delivers rich, high-resolution sound with seamless connectivity. Its two-channel design, gold-plated terminals, and premium components ensure pure, powerful audio. A dedicated MM/MC phono circuit preserves the clarity of your vinyl records, while built-in support for Roon, Tidal, and Deezer brings high-resolution streaming to your home. With Apple and Google Assistant compatibility, controlling your sound has never been easier.

TX-8220

STEREO RECEIVER

The TX-8220 combines pure analogue amplification with universal connectivity for a natural, controlled sound. It features digital inputs for TV and BD/DVD, five analog inputs, an MM phono input for turntables, and DAB+/FM radio with 40 presets. Built-in Bluetooth® ensures effortless streaming from your phone, tablet, or PC. With its clean design and high versatility, the TX-8220 offers outstanding value for any audio setup.

HI-FI AMPLIFIERS

Experience true high-fidelity sound with amplifiers designed for clarity, power, and precision. The Muse Series fuses 80 years of Japanese audio expertise into an elegant all-in-one 2-channel system, while the Icon Series delivers powerful performance through a refined, beautifully engineered chassis.

ICON P-80 & M-80

ICON A-50

HIGH-END HI-FI AMPLIFIERS

ICON SERIES

P-80

HI-FI NETWORK PREAMPLIFIER

The P-80 delivers pure, high-fidelity sound with Onkyo's patented DIDRC technology, minimizing high-frequency distortion. With extensive connectivity, including HDMI ARC, Wi-Fi, and Roon Ready support, it offers seamless access to top streaming platforms. Its premium build and Dirac Live Room Correction ensure a refined listening experience.

M-80

HI-FI POWER AMPLIFIER

With 200W per channel and a symmetrical Class AB design, the M-80 delivers dynamic, distortion-free audio. Its high-current power supply and advanced DIDRC circuitry enhance clarity, while the robust aluminum chassis and heat-dissipating design ensure stability and performance.

A-50

STEREO STREAMING AMPLIFIER

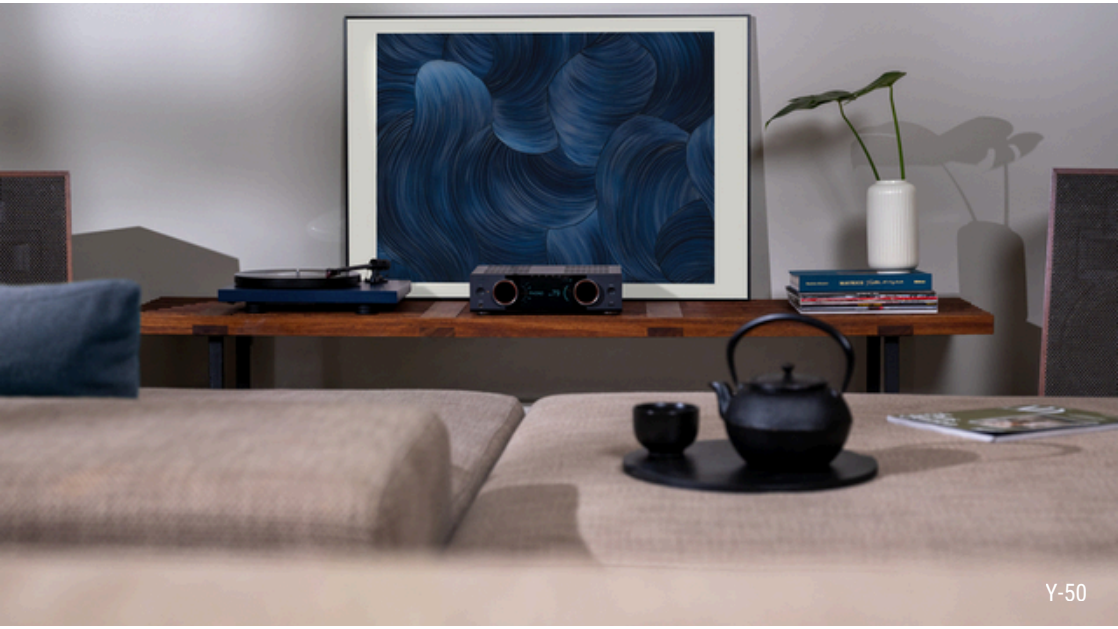

Blending high-end design with powerful performance, the A-50 features a symmetrical Class AB amplifier (180W @4Ω) and a premium DAC for precision audio. It supports HDMI ARC, Wi-Fi, Bluetooth, and major streaming platforms, making it a versatile centerpiece for any modern sound system.
